Abikram Mondal

WEB DEVELOPER · CYBERSECURITY & FORENSICS · WRITER

PROFILE

Multifaceted web developer and cybersecurity enthusiast who builds secure, thoughtful software and turns slow, manual business work into systems that run themselves. Weaves together modern technology, writing and a grounded, Vairagi outlook — so every project carries a soul within its code.

KEY PROJECTS

ERP System · 2026

Full-fledged business platform integrating core operational modules to digitize and streamline company workflows.

Content Automation · 2026

A daily content-posting system with an integrated assistant for generation and scheduling.

Lead Management FMS · 2026

Lead-management platform with a flow-management engine that tracks and routes prospects end-to-end.

HR Flow-Management System · 2026

People-operations system built on Google Sheets and Apps Script to streamline HR workflows.

SEO Score System · 2026

A tool that generates any website's SEO score with actionable optimisation insights.

Image Steganography · 2025

A Python tool that hides encrypted data inside images using a secret key and decodes it, leaving no visible trace.
